Usukhbayar Batbayar

Software Engineer

unobatbayar@protonmail.com Ulaanbaatar, Mongolia https://unobatbayar.github.io/

Summary

Software engineer with 6+ years of experience in mobile development, with hands-on experience across frontend and backend technologies. I enjoy building efficient, scalable solutions, solving meaningful problems, and contributing to team success.

Experience

Yamaha Corporation

Software Engineer Jan 2021 - Jan 2026

- Contributed to the development of the SEQTRAK application in Unity (supporting iOS/macOS/Android/Windows), integrating with musical hardware. Responsibilities included implementing the GUI, effect graphs, plugin development, and server/API connections over a two-year period.
- Maintained and improved the Rec'n'Share iOS/Android app, boosting performance by 47% through a redesigned song loading algorithm and resolving critical crashes. Enhanced user experience and ratings via feedback-driven fixes and new features. Integrated a sound division library to extend app functionality.
- Developed and implemented the GUI components for the Expanded SoftSynth VST plugin in C++ for the MONTAGE M synthesizer, contributing to both version 1.0 and 2.0 releases.
- Developed and maintained full-stack web applications to implement Yamaha's product and technology portfolio site as well as employee work metrics.

MCS Group

Software Engineer Oct 2019 - Jan 2021

- Contributed to Android development and successful launch of fintech application Simple.
- Refactored and debugged code for readability and efficiency.
- Developed backend APIs using Spring Boot.

Yamaha Corporation

Software Engineer Intern Jun 2018 - Aug 2018

- Added a Transpose function for Soundmondo app using C# and Xamarin.
- Developed automated testing tool leveraging iOS, SwitchBot, and IFTTT for MONTAGE M.

Objective

To build efficient software solutions, contribute to team success, and help others grow.

Languages

C# Java C++ Python

TypeScript SQL Swift

Technologies

Algorithms Data Structures Mobile

Web Backend ORM

Frameworks & Libraries

NextJS FastAPI SwiftUI

Tools

Xcode Unity 3D Docker

Android Studio Git

Education

BSc with Hons - Computer Science with Business Management

Queen Mary University of London

Aug 2016 - Apr 2020
